Frida is an 8 year old grey and beige tabby. She is on the small side, with yellow eyes and some white marking under her chin. She disappeared from our home in mid November, but we are hoping someone has been taking care of her or has seen her. Frida is mostly an indoor cat but she is friendly to strangers, and has jumped into our car and our neighbors cars on occasion. We're wondering if she was transported away from our area by accident, as we've canvased our small town a dozen times. Frida is microchipped. We miss her very much and are still looking for her.
