This dog seems to be a hound mix. I've seen them at the Ma-le'l dunes two days now. The first time was last Thursday and now this morning 3/25. They don't respond to me and won't come when called and just seem to be sniffing the ground and running around. They are currently in the dune area on the north Ma-le'l dune trail running around but won't respond. The photo I took is from far away because they run away or in circles whenever I try to get close. They seem younger and are pretty thin.
