Gilly is a Tuxedo, he has 6 toes and talks a lot , He has been my baby his whole life and most of mine, he is missing as well as his brother and sister both tabby's, the male has a clipped ear and is feral) But Let's me hold him and pet him only. they have always been inside and out side cats as we live on a ranch and they have a cat door into the house in 11 years for gilly he has never ever wandered Because He knows where home is, but one day when we got back, they were all gone, If you have any information or I hate to say it, but do you have them please do the right thing and give them back I Miss them more than I can explain they've been with me for almost 8 years and Gilly almost 12
