Our boy snuck outside last night around 11pm. He is black w/ bright green eyes. Very shy and skeptical of strangers, unlikely to approach but could be tempted with treats and a very calm demeanor. We are in the 300 block of Quail Valley Rd so he's not likely anywhere near streets or residential areas. I expect he's in the forest, but hoping someone in the neighborhood may spot him. He has never been outside and is probably quite terrified.
