My cat and I are living in Rio Dell, CA. Yeti is a very social cat. He was been getting use to being outside, but majority of the time he is indoors. He has a common place he hangs out at which is right next to my apartment building. Like I mentioned before he is very social and likes people. He hasn't come home since Sunday 7/20/25. Someone has told me that they saw him around the overpass at the end of Rio Dell, CA.
