He is a floofh of a gray kitty. White spot on his chest and a heart shaped white spot on his back left two middle toes foot. He responds to ash, fuzz head, Ashford James, and Ashhole. My dog, bless her impatient lil soul, leg herself in through the screen door, I see said door and yell cat count to which ash got scared off. He has the braincell of an orange cat and the meow of cat 3 times smaller then him. Beautiful green eyes and sometimes a mean mug.. but sweet af. Happened 8-16 around 8:45 pm.
