Billy has just been moved to a new neighborhood. He was doing fine but then ran after the first night at the new house. He has hidden out before for several days, he has stayed away for up to 3 days without food or water. When he gets scared, he hunkers down under bushes or inside dark areas and will not respond.. He is timid but might come to someone who is quiet. If you see him pls take a picture and send it in. He is chipped to a family member in Yuba City, he is not wearing a collar.
