**Age:** 12ish

**Found on:** Sunday, Sept. 28

**Found at:** Manila

**Contact:** Tanya

**Phone:** 352-424-8462

**Email:** Crashmytuna@gmail.com

I moved in to a new place in the summer, and there were two stray cats that everybody fed, one recently passed away, and I took the other into the vet today and tested her. Unfortunately, she came back feline AIDS positive, but I vaccinated her, dewormed, flea treated, and confirmed that she was spayed but I cannot bring her into my home as I have a cat who is strictly indoors and negative for AIDS or leukemia. I will continue to feed and I built a nice shelter for her in my carport, but I would love if anybody has a feline AIDS positive cat or no cat and would like to adopt a very sweet older cat. Please contact me.
