This cat was at Lincoln's school on Harris Ave. meowing and ran towards me and kept following me and was looking around like it was lost. Followed me home over by the new park 2030 but. I walked back over to Lincoln school in the hope. So that maybe I could find the owner. Cat outside my house because it's a few blocks away. So I'm sitting here with this cat. Who is still not sure where it belongs? I think, but it's definitely someone's cat.
