Ti ti is a mainly white kitty. She has grey ears and two grey patches. One on top of her head. And one on her left side. She has an all grey tail. She's a short hair kitty. She's pretty shy and sweet. She's due to get fixed next week. She slipped out of the back door this morning and she hasn't been seen since. We found her siblings. But no sign of her at all. We are hoping for a safe and speedy return home.
