Please! I went out of town the night of 12/4 and my roommate accidentally let my new kitten out and didn't let me know until this morning, 12/5. She hasn't been chipped or fixed yet and hasn't finished her vaccines which makes me even more freaked out. Shes VERY skittish, but loves wet food. She's about 2.5-3 pounds. I rescued her as a feral kitten and she hasn't lived outdoors for 2 months. This is in pine hill area of eureka, end of Union St, almost backing up to the golf course
