Very friendly young grey cat with a white chin, tummy, paws, and diamond shape between his green eyes. We think he's a boy. He has very short whiskers. Hard to tell if he is a kitten or just underweight. We have him in our spare room right now but are trying to get in contact with the County Animal Shelter to take him. Our neighbor told us this morning that there was a young cat under our porch; he may have been hiding out from the rain last night. He came right up when we called him and has been extremely affectionate so we are hoping there's a family out there to reunite him with. He's very underweight and dirty at the moment.
