Phone: 707-298-1446

Email: nomoreblinders@gmail.com

Norman disappeared on January 16 , I believe he was taken off the property and drop somewhere. Norman is a unique character, he is extremely loving. He loves to carry on a conversation tell you all about his his day. I love this little cat like he is my child and I am just sick that I can't find him. I do believe that someone intentionally removed him from the property out of spite. Another cat disappeared under the same circumstances approximately 3 weeks ago, there will be an additional post for her. So sad Norman and how he must feel wherever he is please help find him. Norman is chipped but I believe his trip is possibly not registered. The picture I posted shows Norman ear is split in two different places
