Lost my cat Guts near Alamar Way/River Walk Dr in Fortuna on Feb 5 2026 around 3:30 pm. He currently didn't have his collar since its a breakaway color and he has a habit of removing it. He is extremely friendly and I've spent the all of yesterday and today looking for him. I believe someone might have mistaken him for a stray and taken home. If seen/found please contact. \$50 reward
