He is an indoor outdoor cat who hangs outside during the day. All black with green eyes and about 7 pounds. Very sweet 7 year old who is very chill and lovey. We left the house for 3 hours on Sunday 3/29/26 around 1pm and when we got home there was no sign of him and he hasn't come home since (3/29/26). This has never happened before so I am very worried and devastated.
