Came home about 6pm saw the dogs got out of there kennel the retriever came back home within 20 minutes but the lab hasn't returned yet "Dutch". He's very friendly and will jump into anybody's car if they stop and try and get him. We live on fox creek road about a mile up from the 36 he's not supposed to but he does go down to the highway if he thinks he can catch us when we leave and my wife left at about 4 pm.
