Dotti has not been home in 3 nights in a row. She lives at River Community Homes Inc. on Hallen Drive in Arcata, California. She is cute and playful, but tends to keep to herself. She says hello by rolling on her back and that's when you can see the dots on her belly, most are black and one is orange. She may be out and distracted or lost as she is an avid hunter of gophers and other creatures... hopefully she's not lost and she will come home soon. She is very very missed ■
