Dotti has been missing for 3 nights. She usually comes home every night. She is microchipped registered with Pet Place 24Petwatch, her info is all up to date. She lives at River Community Homes Inc. at 1061 Hallen Dr. She is friendly, but tends to keep to herself and is an avid hunter. Dotti will often say hello by rolling on her back and showing the dots on her belly which are all black with one orange dot. Dotti also has striping and looks different colors in different lighting. Please please, if you have any information about her whereabouts, it would be greatly appreciated as she is very much missed, loved and cared about....
