My male tabby cat "Brip" has been missing since Saturday. Last seen in the Arrowhead neighborhood on Sunset Place off Patterson in Willow Creek around 8:00 p.m. Saturday evening. He is six years old, neutered and chipped. He is a bit thinner than in these photos. His tail now looks like a raggedy feather duster. ■ If anyone lives nearby can please check their garages and sheds that would be great, although you would probably hear him meowing if he were locked in. If you have seen him recently or see him hanging around, please message me. Please don't pick him up as he is a nibbler. Thanks so much!
