This cat hangs around the street D St. and Harris. Shes been getting skinner and skinner for the last few years. I've always thought she has a home but maybe not or maybe her owners moved away. Or maybe she's older/and or sick and has a home? Anyhow she begged me for my lunch today and was very happy to have a few snacks. If she doesn't have a home I would give her one but I couldn't stand to accidentally take her from someone. Is she yours or do you know where she came from?
