I'm this is Jackie with the missing Solo Tammany in Rio Dell. As I was following paws cause on FB....a pic showed up about our cat dead on blue slide rd. I can not find the post anymore under the rest in peace posts. I have attached a pic of the post but no identification on when that was posted. I went looking for her body to bring home and bury, couldn't find anything. She has been missing for awhile so the post is probably old. Any info on when this was posted would be great to now.
