This little one randomly appeared in my completely fenced off courtyard around 5 this morning. They're pretty small. My guess is less than a year old? I only got a quick glance at it's face but I believe there was some white on its nose. Not sure though. They're very skiddish somehow disappeared when I went to check on them. I live off of West by Zane Middle School. I will keep an eye out for them will alert my neighbors to do the same. Sorry. This is the best picture I have.
